

Important COVID-19 Resource for Child Care

The Centers for Disease Control and Prevention has posted a Supplemental Guide for Child Care. Written in collaboration with the Offices of Child Care and Head Start for a variety of child care settings, this resource provides guidance specific to child care on issues such as:

- Social distancing;
- Child pick up and drop off procedures;
- Cleaning and disinfecting of toys and bedding;
- Safely caring for infants and toddlers; and
- Food preparation and meal service

In addition, the Guidance document provides numerous links to resources that provide even greater detail, including information regarding children's risks concerning the coronavirus (COVID-19).

Helping Children Cope During COVID-19

Children react, in part, on what they see from the adults around them. When parents and caregivers deal with the COVID-19 calmly and confidently, they can provide the best support for their children. The CDC lists the warning signs of stress in children as well as ways to support them during this difficult time.

OF YOURSELF

COVID-19

How is it spread?

Through the
air by coughing
and sneezing

Close personal
contact, such
as touching or
shaking hands

Touching an object
or surface with the
virus on it, then
touching your mouth,
nose, or eyes

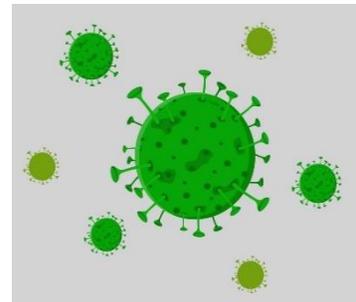

If you have recently traveled to an area that has COVID-19 transmission and are experiencing symptoms such as fever, coughing or shortness of breath, call ahead to your health care provider before seeking medical care.

COVID-19 Child Care Recommendations

DSS recommends child care facilities implement the following steps to help yourselves, your staff, and the children in your care stay healthy.

1. Make sure children, staff, and visitors are washing hands as directed by DHEC.
2. Clean and disinfect all surfaces within the facility regularly.
3. Practice social distancing when possible.
4. Consider changing your sign in procedures for parents and other visitors (e.g., move handoffs closer to the front door to minimize parents coming into the classroom space and avoid possible exposure to children and caregivers).
5. Limit visitors to the facility.
6. Limit communal sharing of food, and donations where possible.
7. Direct staff to stay home when they are sick, and direct parents to keep their children home when they exhibit symptoms of illness.
8. Establish procedures to ensure children and staff who become sick at daycare or arrive at your facility sick are sent home as soon as possible. Keep sick children and staff separate from well children and staff until they can leave.

Expanding Child Care Capacity

The Governor has declared a State of Emergency for the COVID-19 emergency, and emergency plans for child care licensing are in effect. If you are a licensed child care center and can expand your capacity to serve the children of essential state and local services personnel and other children displaced by closures, please contact Child Care Licensing at 1-888-825-7174 or childcare.disaster.response@dss.sc.gov as soon as possible.

If your organization has the ability to set up a temporary child care site, please contact Child Care Licensing at 1-888-825-7174 or childcare.disaster.response@dss.sc.gov. You may be allowed to operate without a license for a maximum of 30 days in accordance with state law (63-13-440). Child Care Licensing must grant approval for temporary child care arrangements.

If you have general questions about COVID-19, the DHEC Care Line is here to help at 1-855-472-3432 on weekdays from 8 a.m. to 6 p.m. For the most up to date information about the Coronavirus, visit DHEC's website at scdhec.gov/COVID19.
